#### NOTES TO THE FINANCIAL STATEMENTS

(All amounts in Canadian dollars) June 30, 2020

#### 1. The Fund

BMO Global Water Solutions TACTIC Fund ("the Fund"), is an open-end (daily redeemable) mutual fund established as a trust under the laws of the Province of Ontario on January 29, 2015 and amended on December 7, 2018. BMO Nesbitt Burns Inc. (the "Manager") is responsible for the management and administration of the Fund.

The address of the Fund's registered office is 1 First Canadian Place, 100 King Street West, 3<sup>rd</sup> Floor Podium, Toronto, Ontario, M5X 1H3.

The Statement of Financial Position and related notes are as at June 30, 2020 and December 31, 2019. The Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Units, Statement of Cash Flows and related notes are for the periods ended June 30, 2020 and June 30, 2019.

These financial statements were authorized for issuance by the authorized officers of BMO Nesbitt Burns Inc., as Administrators, on August 6, 2020.

These financial statements should be read in conjunction with the annual financial statements for the period ended December 31, 2019, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB").

#### 2. Basis of preparation and presentation

These unaudited interim financial statements have been prepared in accordance with IFRS and in accordance with the International Accounting Standard ("IAS") 34 – Interim Financial Reporting, as issued by the IASB. The financial statements have been prepared on a historic cost basis, except for the revaluation of financial assets and financial liabilities (including derivative financial instruments) measured at fair value through profit or loss ("FVTPL").

### 3. Summary of significant accounting policies

#### Financial instruments

Financial instruments include financial assets and financial liabilities such as equity and debt securities, investment funds and derivatives. These financial instruments are part of a group of instruments that are managed and their performance is evaluated on a fair value basis in accordance with the Fund's investment strategy.

The Fund classifies and measures financial instruments in accordance with IFRS 9 Financial Instruments ("IFRS 9"). Upon initial recognition, financial instruments are recorded at fair value. A financial instrument is recognized when the Fund becomes a party to the contractual requirements of the instrument, and is derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date. Investments and derivatives are subsequently measured at FVTPL, with changes in fair value recognized in the Statement of Comprehensive Income as "Change in unrealized (depreciation) appreciation".

All financial assets and financial liabilities are recognized in the Statement of Financial Position.

The Fund's outstanding redeemable units, which are puttable instruments, are entitled to a contractual obligation of annual distribution of any net income and net realized capital gains by the Fund. This annual distribution can be in cash at the option of the unitholders, and therefore the ongoing redemption feature is not the redeemable units' only contractual obligation. Also, the Fund has issued multiple series of redeemable units, which are equally subordinated but are not identical and consequently, do not meet the conditions to be classified as equity. As a result, the Fund's obligations for net assets attributable to holders of redeemable units ("Net Assets") are classified as financial liabilities and presented at the redemption amounts.

#### Cost of investments

The cost of investments represents the amount paid for each security and is determined on an average cost basis, and excludes commissions and other portfolio transaction costs, which are reported separately in the Statement of Comprehensive Income. Realized gains and losses on disposition are determined based on the cost of investments.

#### Fair value measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

For exchange-traded securities, close prices are considered to be fair value if they fall within the bidask spread. In circumstances where the close price is

#### NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(All amounts in Canadian dollars) June 30, 2020

not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of the fair value based on the specific facts and circumstances.

Procedures are in place to fair value equities traded in countries outside of North America daily, to avoid stale prices and to take into account, among other things, any significant events occurring after the close of a foreign market.

The Fund may enter into forward currency contracts for hedging purposes either directly or indirectly or for non-hedging purposes. The fair value of forward currency contracts entered into by the Fund is recorded as the difference between the fair value of the contract on the Valuation Date (the "Valuation Date" is each day on which the TSX is open for trading) and the fair value on the date the contract originated.

For securities where market quotes are not available, unreliable or not considered to reflect the current value, the Manager may determine another value which it considers to be fair and reasonable, or use a valuation technique that, to the extent possible, makes maximum use of inputs and assumptions based on observable market data including volatility, comparable companies and other applicable rates or prices. These estimation techniques include discounted cash flows, internal models that utilize observable data, or comparisons with other securities that are substantially similar. In limited circumstances, the Manager may use internal models where the inputs are not based on observable market data.

#### Cash

Cash is comprised of cash and deposits with banks, which include bankers' acceptances and overnight demand deposits. The carrying amount of cash approximates its fair value because it is short-term in nature.

#### Other assets and other liabilities

Other assets and other liabilities generally include receivable for investments sold, dividends receivable, distribution receivable from investment trusts, payable for investments purchased, redemptions payable, distributions payable, and accrued expenses. These financial assets and financial liabilities are short-term in nature and are subsequently measured at amortized cost, which approximates their fair value.

Investments in subsidiaries, joint ventures and associates Subsidiaries are entities over which the Fund has control through its exposure or rights to variable returns from its investment and has the ability to affect those returns through its power over the entity. The Manager has determined that the Fund is an investment entity and as such, it accounts for subsidiaries, if any, at fair value. Joint ventures are investments where the Fund exercises joint control through an agreement with other shareholders, and associates are investments in which the Fund exerts significant influence over operating, investing and financing decisions (such as entities in which the Fund owns 20% – 50% of voting shares), all of which, if any, have been classified as FVTPL.

#### Unconsolidated structured entities

The Manager has determined that its investment in investments funds, if any, are unconsolidated structured entities. The determination is based on the fact that decision making about the investment funds is not governed by the voting right or other similar right held by the Fund.

Investment funds' investment objectives range from achieving short-term to long-term income and capital growth potential. Investment funds may use leverage in a manner consistent with their respective investment objectives and as permitted by Canadian securities regulatory authorities. Investment funds finance their operations by issuing redeemable units, which are puttable at the holders' option and entitles the holder to a proportionate stake in the respective fund's net assets. The change in fair value of each of the investment funds during the periods is included in "Change in unrealized (depreciation) appreciation" in the Statement of Comprehensive Income.

The Fund does not provide and has not committed to providing any additional significant financial or other support to the unconsolidated structured entities other than its investments in the unconsolidated structured entities.

As at June 30, 2020 and December 31, 2019, the Fund does not have any direct investments in unconsolidated structured entities.

Offsetting of financial assets and financial liabilities
Financial instruments are presented at net or gross
amounts in the Statement of Financial Position
depending on the existence of intention and legal
right to offset opposite positions of such instruments
held with the same counterparties. Amounts offset in

#### **NOTES TO THE FINANCIAL STATEMENTS** (cont'd)

(All amounts in Canadian dollars) June 30, 2020

the Statement of Financial Position are transactions for which the Fund has legally enforceable rights to offset and intends to settle the positions on a net basis. Amounts not offset in the Statement of Financial Position relate to positions where there is no legally enforceable right to offset, or the legal right to offset is only in the event of default, insolvency or bankruptcy, or where the Fund has no intention of settling on a net basis or no right of offset. There were no master netting arrangements during the periods.

#### Income recognition

Dividend income and distributions received from investment trusts are recognized on the ex-dividend and ex-distribution date, respectively.

#### Foreign currency translation

The fair value of investments and other assets and liabilities in foreign currencies are translated into the Fund's functional currency, which is Canadian dollars, at the rates of exchange prevailing at the period-end date. Purchases and sales of investments, and income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions. Realized foreign exchange gains (losses) on completed transactions are included in "Net realized gain" in the Statement of Comprehensive Income and unrealized foreign exchange gains (losses) are included in "Change in unrealized (depreciation) appreciation" in the Statement of Comprehensive Income, Foreign exchange gains (losses) relating to cash, receivables and payables are included in "Foreign exchange gain (loss)" in the Statement of Comprehensive Income.

Increase or decrease in net assets attributable to holders of redeemable units per unit

"Increase (decrease) in net assets attributable to holders of redeemable units per unit" of a class in the Statement of Comprehensive Income represents the increase (decrease) in net assets attributable to holders of redeemable units ("Net Assets") of the class divided by the weighted average number of units outstanding of the class during the period.

The increase (decrease) in net assets attributable to holders of redeemable units per unit for the periods ended June 30, 2020 and June 30, 2019, is calculated as follows:

For the periods ended	June 30, 2020	June 30, 2019
Class A Units		
(Decrease) increase in net assets attributable to holders of redeemable units	(939,170)	363
Weighted average units outstanding during the period	923,469	924,805
(Decrease) increase in net assets attributable to holders of redeemable units per unit	(1.02)	0.00
Class D Units		
Decrease in net assets attributable to holders of redeemable units	(2,633)	(384)
Weighted average units outstanding during the period	2,900	2,005
Decrease in net assets attributable to holders of redeemable units per unit	(0.91)	(0.19)
Class F Units		_
Decrease in net assets attributable to holders of redeemable units	(72,887)	(2,642)
Weighted average units outstanding during the period	74,157	41,650
Decrease in net assets attributable to holders of redeemable units per unit	(0.98)	(0.06)
Class I Units		
(Decrease) increase in net assets attributable to holders of redeemable units	(1)	1
Weighted average units outstanding during the period	1	1
(Decrease) increase in net assets attributable to holders of redeemable units per unit	(0.90)	1.18
Class X Units		
Increase in net assets attributable to holders of redeemable units	_	2,003,602
Weighted average units outstanding during the period	_	2,256,446
Increase in net assets attributable to holders of redeemable units per unit	_	0.89

#### **NOTES TO THE FINANCIAL STATEMENTS** (cont'd)

(All amounts in Canadian dollars) June 30, 2020

#### Reconciliation of NAV to Net Assets

As at June 30, 2020 and December 31, 2019, there were no differences between the Fund's NAV per unit and its Net Assets per unit calculated in accordance with IFRS.

#### **Taxation**

The Fund qualifies as a mutual fund trust under the provisions of the Income Tax Act (Canada). Distributions of all net taxable income and sufficient amounts of net realized capital gains for each taxation year will be paid to unitholders so that the Fund will not be subject to income tax. As a result, the Manager has determined that the Fund is in substance not taxable and therefore, does not record income taxes in the Statement of Comprehensive Income, nor does it recognize any deferred tax assets or liabilities in the Statement of Financial Position.

The Fund may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and capital gains are recorded on a gross basis with the related withholding taxes shown as a separate expense in the Statement of Comprehensive Income.

Non-capital losses are available to be carried forward for twenty years. Capital losses, for income tax purposes, may be carried forward indefinitely and applied against capital gains realized in future years. As at December 15, 2019, the Fund had capital losses carried forward of \$483 and no non-capital losses carried forward.

#### 4. Critical accounting estimates and judgements

The preparation of financial statements requires the use of judgement in applying the Fund's accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgements and estimates that the Fund has made in preparing its financial statements.

#### Accounting judgements:

#### Functional and presentation currency

The Fund's unitholders are mainly Canadian residents, with the subscriptions and redemptions of the redeemable units denominated in Canadian dollars. The performance of the Fund is measured and reported to the investors in Canadian dollars. The Manager considers the Canadian dollar as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in Canadian dollars, which is the Fund's functional and presentation currency.

#### Classification and measurement of financial instruments

In classifying and measuring financial instruments held by the Fund, the Manager is required to make an assessment of the Fund's business model for managing financial instruments. In classifying and measuring financial instruments held by the Fund, the Manager is required to make significant judgements in determining the most appropriate classification in accordance with IFRS 9. The Manager has assessed the Fund's business model with respect to the manner in which financial assets and financial liabilities are managed as a group and performance is evaluated on a fair value basis and has concluded that FVTPL in accordance with IFRS 9 provides the most appropriate measurement and presentation of the Fund's investment portfolio. The collection of principal and interest is incidental to the fair value business model.

#### Accounting estimates:

# Fair value measurement of securities not quoted in an active market

The Manager has established policies and control procedures that are intended to ensure these estimates are well controlled, independently reviewed, and consistently applied from period to period. The estimates of the value of the Fund's assets and liabilities are believed to be appropriate as at the reporting date.

The Fund may hold financial instruments that are not quoted in active markets. Note 3 discusses the policies used by the Fund for the estimates used in determining fair value.

#### 5. Units and unit transactions

The redeemable units of the Fund are classified as financial liabilities. The units have no par value and are entitled to distributions, if any. Upon redemption, a unit is entitled to a proportionate share of the Fund's NAV. The Fund is required to pay distributions in an amount not less than the amount necessary to ensure the Fund will not be liable for income taxes on realized capital gains, dividends and interest. The Fund has no restrictions or specific capital requirements on the subscriptions and redemptions of units except as disclosed in Note 7. The relevant movements in redeemable units are shown in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units.

In accordance with its investment objectives and strategies, and the risk management practices outlined in Note 7, the Fund endeavours to invest the subscriptions received in appropriate investments, while maintaining sufficient liquidity to meet

#### NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(All amounts in Canadian dollars) June 30, 2020

redemptions, with such liquidity being augmented by short-term borrowing or disposal of investments where necessary.

Redeemable units of the Fund are offered for sale on a continuous basis and may be purchased or redeemed on any Valuation Date at the NAV per unit of a particular class. The NAV per unit of a class of the purposes of subscription and redemption is computed by dividing the NAV of the Fund attributable to the class (that is, the total fair value of the assets attributable to the class less the liabilities attributable to the class) by the total number of units of the class of the Fund outstanding at such time on each Valuation Date, in accordance with Part 14 of National Instruments ("NI") 81-106 Investment Fund Continuous Disclosure for the purpose of unitholder transactions.

Expenses directly attributable to a class are charged to that class. Other expenses, income, realized and unrealized gains and losses from investment transactions are allocated proportionately to each class based upon the relative NAV of each class.

The number of units that have been issued and are outstanding are disclosed in the table below.

For the periods ended	June 30, 2020	June 30, 2019
Class A Units		
Units issued and outstanding, at beginning		
of period	1,014,942	1
Issued	107	3,655

#### 6. Related party transactions

Administration and portfolio management fees
The Manager is responsible for providing or arranging
for the day-to-day management, administration and
compliance services of the Fund. The Manager monitors
and evaluates the performance of the Fund, pays for
the investment management services of the portfolio
manager and provides all administrative services
required by the Fund. As compensation for its services,
the Manager is entitled to receive the following fees
payable monthly, calculated at the following maximum
annual rates, plus applicable taxes:

Class	Management Fee (%)
Class A Units	2.00
Class D Units	1.00
Class F Units	1.00
Class I Units	*
Class X Units	1.00

\*Negotiated and paid by each Class I investor directly to the Manager.

The outstanding accrued management fees due to the Manager are included in "Accrued expenses" in the Statement of Financial Position and for the period ended June 30, 2020 amounted to \$17,945 (December 31, 2019 – \$23,581).

Affiliates of the Manager provide the Fund with certain facilities and services such as accounting, record keeping, issuing financial statements, and for general administrative support. Fees for these services are shown as "Fund administration fees" in the Statement of Comprehensive Income and for the period ended June 30, 2020 amounted to \$28,155 (June 30, 2019 – \$28,012).

#### Other related party transactions

The Manager is a member of BMO Financial Group. From time to time, the Manager may, on behalf of the Fund, enter into transaction arrangements with, or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Manager of the Fund. The terms of such transactions will be at market at the relevant times.

#### **NOTES TO THE FINANCIAL STATEMENTS** (cont'd)

(All amounts in Canadian dollars) June 30, 2020

#### Brokerage commissions and soft dollars

Brokerage commissions (excluding transaction costs) paid on security transactions and amounts paid to the Manager for brokerage services provided to the Fund for the periods were as follows:

For the periods ended	June 30, 2020	June 30, 2019
Total brokerage amounts paid (\$)	3,097	4,926
Total brokerage amounts paid to related parties (\$)	_	_

There were no ascertainable soft dollars paid or payable to dealers by the Fund during the periods.

#### Units held by the Manager

The Manager held the following units:

#### As at June 30, 2020

Class	Number of Units	Value of Units (\$)
Class A Units	1	11
Class D Units	1	11
Class F Units	1	11
Class I Units	1	11

#### As at December 31, 2019

Class	Number of Units	Value of Units (\$)
Class A Units	1	12
Class D Units	1	12
Class F Units	1	12
Class I Units	1	12

#### 7. Financial instruments risks

The Fund's activities expose it to a variety of risks associated with the financial instruments, as follows: market risk (including currency risk, interest rate risk and other market risk), credit risk and liquidity risk. The concentration table groups securities by geographic location. The Fund's risk management practices outline the monitoring of compliance to investment guidelines.

The Manager manages the potential effects of these financial risks on the Fund's performance by employing and overseeing professional and experienced portfolio advisors who regularly monitor the Fund's positions and market events, and diversify the investment portfolio within the constraints of the investment guidelines.

The Fund's objective is to provide unitholders with the opportunity for capital appreciation and quarterly cash distributions by investing in an actively managed global portfolio comprised primarily of publicly-listed equity securities of water issuers.

No changes affecting the overall level of risk of investing in the Fund were made during the period.

#### Currency risk

Currency risk is the risk that the fair value of financial instruments denominated in currencies, other than the functional currency of the Fund, will fluctuate due to changes in foreign exchange rates. Investments in foreign markets are exposed to currency risk as the prices denominated in foreign currencies are converted to the Fund's functional currency in determining fair value. The Fund may enter into forward currency contracts for hedging purposes to reduce foreign currency exposure or to establish exposure to foreign currencies.

#### **NOTES TO THE FINANCIAL STATEMENTS** (cont'd)

(All amounts in Canadian dollars) June 30, 2020

The Fund's exposure to currency risk is summarized in the tables below. Amounts shown are based on the carrying value of monetary and non-monetary assets (including derivatives and the underlying principle (notional) amounts of forward currency contracts, if any).

#### As at June 30, 2020

Currency	Cash and other current receivables & payables (\$)	Investments and options (monetary & non-monetary) (\$)	Forward currency contracts (\$)	Net currency exposure (\$)	As a % of Net Assets %

South Korean Won	_	466,776	_	466,776	3.6
Swedish Krona	_	354,689	_	354,689	2.7
Swiss Franc	1,544	214,492	_	216,036	1.7
U.S. Dollar	3	6,067,169	_	6,067,172	47.0
Total	18,820	12,046,878	_	12,065,698	93.4

As at June 30, 2020 and December 31, 2019, if the Canadian dollar had strengthened or weakened by 5% in relation to all foreign currencies, with all other variables held constant, the Net Assets of the Fund could possibly have decreased or increased, respectively, by approximately \$494,666 (December 31, 2019 – \$603,825). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

#### Interest rate risk

Interest rate risk is the risk that the fair value of the Fund's interest bearing investments will fluctuate due to changes in market interest rates. The Fund's

exposure to interest rate risk is concentrated in its investment in debt securities (such as bonds, money market investments, short-term investments and debentures) and interest rate derivative instruments, if any. Other assets and liabilities are short term in nature and/or non-interest bearing.

As at June 30, 2020 and December 31, 2019, the Fund did not have any significant exposure to interest rate risk.

#### **NOTES TO THE FINANCIAL STATEMENTS** (cont'd)

(All amounts in Canadian dollars) June 30, 2020

#### Other market risk

Other market risk is the risk that the fair value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in a market. Other assets and liabilities are monetary items that are short-term in nature, as such they are not subject to other market risk.

The Fund has a significant exposure to other market risk arising from its investment in equity securities. Using historical correlation between the Fund's return and the return of its benchmark, if the benchmark, the MSCI World Index, had increased or decreased by 10%, with all other variables held constant, the Net Assets of the Fund would have increased or decreased, respectively by \$1,090,231 (December 31, 2019 – \$1,193,317). Historical correlation may not be representative of future correlation, and accordingly, actual results may differ and the difference could be material.

#### Credit risk

Credit risk is the risk that a loss could arise from a security issuer or counterparty to a financial instrument not being able to meet its financial obligations. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer. Credit risk exposure for over-the-counter derivative instruments is based on the Fund's unrealized gain of the contractual obligations with the counterparty as at the reporting date. The credit exposure of other assets is represented by its carrying amount.

As at June 30, 2020 and December 31, 2019, the Fund did not have any significant exposure to credit risk.

#### Liauidity risk

The Fund's exposure to liquidity risk is concentrated in the redemptions of units. The Fund primarily invests in securities that are traded in active markets and can be readily disposed. In addition, the Fund retains sufficient cash and cash equivalent positions to maintain liquidity. The Fund may, from time to time, enter into over-the-counter derivative contracts or invest in unlisted securities, which are not traded in an organized market and may be illiquid. Securities for which a market quotation could not be obtained and may be illiquid are identified in the Schedule of Investment Portfolio. The proportion of illiquid securities to the NAV of the Fund is monitored by the

Manager to ensure it does not exceed the regulatory limit and does not significantly affect the liquidity required to meet the Fund's financial obligations. There were no such illiquid securities held by the Fund as at June 30, 2020 and December 31, 2019.

#### Concentration risk

The Fund's concentration risk is summarized in the following table:

As at	June 30, 2020	December 31, 2019
Austria	1.9%	2.0%
Brazil	0.6%	0.7%
Canada	1.5%	5.2%
Cayman Islands	0.8%	1.0%
Finland	0.7%	1.1%
France	7.5%	5.4%
Germany	1.4%	1.6%
Hong Kong	5.0%	5.3%
Japan	5.6%	6.8%
Mexico	2.1%	2.0%
Netherlands	4.9%	4.7%
Philippines	0.9%	0.8%
Singapore	0.5%	0.3%
South Korea	3.5%	3.6%
Sweden	1.3%	2.7%
Switzerland	0.6%	1.7%
United Kingdom	9.2%	11.8%
United States	49.7%	41.8%
Other Assets Less Liabilities	2.3%	1.5%
	100.0%	100.0%

#### 8. Fair value hierarchy

The Fund classifies its financial instruments into three levels based on the inputs used to value the financial instruments. Level 1 securities are valued based on quoted prices in active markets for identical securities. Level 2 securities are valued based on significant observable market inputs, such as quoted prices from similar securities and quoted prices in inactive markets, or based on observable inputs to models. Level 3 securities are valued based on significant unobservable inputs that reflect the Manager's determination of assumptions that market participants might reasonably use in valuing the securities. The relevant disclosure is shown in the following tables:

As at	June	30,	2020
-------	------	-----	------

Financial Assets	Level 1	Level 2	Level 3	Total
Equity securities	5,429,432	4,575,190	_	10,004,622

As at December 31, 2019
-------------------------

Financial Assets	Level 1	Level 2	Level 3	Total
Equity securities	6,991,569	5,725,225	_	12,716,794

#### NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(All amounts in Canadian dollars) June 30, 2020

#### Transfers between levels

Transfers are made between the various fair value hierarchy levels due to changes in the availability of quoted market prices or observable inputs due to changing market conditions.

During the period from January 1, 2020 to June 30, 2020, the valuation of certain equity securities traded outside of North America were changed from being fair valued by factoring in the impact of significant events occurring after the close of the relevant market to using close prices. As a result of this change, \$62,509 of equity securities were transferred from Level 2 to Level 1.

During the period from January 1, 2019 to December 31, 2019, there were no transfers between the levels.

#### 9. Significant event

The current spread of the novel coronavirus (COVID-19) has caused a global pandemic and the unprecedented responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged social distancing or similar restrictions, as well as the forced or voluntary closure of, or operational changes to many retail and other businesses, has resulted in fundamental changes in the business world with significant impacts on operations and world markets. The impacts on operations includes changes in work environments, inherent controls risk and cyber-risks; while the main impacts on investments includes increase in market risks, market volatility and liquidity risk, with its impacts on valuations.

Management has implemented and will continue to review the situation with a view to implementing additional controls and procedures to adequately address the risks and reduce the impacts of the COVID-19 on the Fund, to the extent possible.
